## TESTIMONIALS

“ I love the Chowly service!  
A business expense well spent. ”  
*-Ken M. St. Louis, MO*

“ The longer we've been working with Chowly,  
the fewer issues we've had. We launched  
several platforms at once and were juggling  
too many things. The process is much  
smoother now and we're not having any  
issues. ”  
*-Randy P. Rochester, NY*

“ We do 4 delivery services in 2 locations  
and it's been great. Probably our greatest  
time saver. They are really easy to work  
with, and if we ever have an issue, they  
reply within 2 hours. I can't say enough  
good things about them. ”  
*-Jim H. Boston, MA*

“ Last night our manager exclaimed 'Thank  
goodness for Chowly!' She is the manager  
on duty and also the bartender, and before  
Chowly, the bartender was responsible for  
keying in all of the tablet orders. You can  
imagine the load and frustration that your  
system took off of them. ”  
*-Arthur J. Chicago, IL*

*How it all comes together.*

## Simplified technology that saves your restaurant time & money

---

---

Our technology solution  
streamlines and integrates  
third-party delivery orders  
into your POS.

## What is Chowly?

Chowly is a point-of-sale (POS) integration that streamlines third-party online orders for restaurants. Orders from platforms such as Grubhub, UberEats, and Doordash are integrated directly into the restaurant's POS system to send order tickets straight to the kitchen.

## Ditch the Delivery Tablets

Restaurant workers are tasked with confirming every order from each delivery tablet, then manually entering the information into the POS system. Chowly eliminates "Tablet Hell" and the operational headache that comes along with it.

## Technology that's Revolutionizing the Restaurant Industry

At Chowly, we work hard to make your business thrive. Our technology is proven to lower staffing costs, increase revenue, and reduce errors, ensuring happier customers. This allows you to spend more time growing your business and less time entering orders.

## What Sets Us Apart?

Chowly has the most sophisticated technology in the industry, using over 20 different POS integrations and a proprietary menu-mapping system. Unlike competitors, we do not use email scrapers, additional hardware, or similar band-aid solutions. Chowly only uses API-based integrations and an individualized approach to simplify your restaurant.

**51%**  
of customers place an order online or through an app

**\$43b**  
were spent on online orders in 2017 alone

**15%**  
of online orders contain errors or quality issues

We'll handle the technology so you can  
**FOCUS ON YOUR RESTAURANT**

WE'RE READY TO  
INTERCEPT YOUR BUSINESS NEEDS

## Like a Lightning Bolt

Chowly captures each third-party order, transmits that data through the POS system, and sends tickets straight to the kitchen as if they were typed in.

Eliminate manual order entry with direct POS integration

Leverage order data to build and grow your business strategy

Achieve happier customers due to decreased errors and faster ticket times

Gain unmatched support 7 days a week from our dedicated team

## Third-Party Integration Market Leader

Choose the technology that's proven to be the best in over 3100 locations.
